After perusal of the application, it was decided to **recommend** grant of NOC in this case for construction of Electricity tower (Public Utility) with the condition that no RCC work will be done, prefabricated structure to be used for construction and work to be carried out under the supervision of ASI. The NOC is recommended to be granted with the terms and conditions mentioned in report of Competent Authority, Haryana. The applicant should follow the local building bye-laws while carrying out construction.

Special Agenda with the Permission of Chair

It was proposed by the Part Time Members that a large number of cases forwarded by the Competent Authority do not contain their objective recommendations at serial 19 of Form-II, in adherence to Rule 10 of Competent Authority Rules, 2011. This impedes the Authority from taking an informed decision. The Authority while expressing its displeasure over such ambiguous recommendations of the Competent Authority, decided that all such applications will be sent back to Competent Authority at pre-vetting stage. Henceforth, while making its recommendations the Competent Authority should mention either "Recommended" or "Not Recommended" in their recommendations at serial 19 of Form II.
