Presentation cases:

Case No.01

After perusal of the presentation, it was decided that the Authority will **visit** the proposed site of construction with local officials of ASI and Competent Authority, Maharashtra before making any final recommendation.

Special Agenda with Permission of Chair

1. During discussion on re-considered cases, it was decided that henceforth all the deferred/send back cases on reconsideration shall be presented in tabular form as "Complied Cases" to expedite the processing of the same. These cases have already been deliberated once and hence there is no requirement of preparing their agenda again. A suitable format for such cases be devised.
2. It was also emphasized on the need to maintain consistency while making recommendations with respect to Height of buildings. Under no circumstances the permission for a height greater than the previously granted height be exceeded with respect to each monuments.
3. MS, NMA recommended the need to streamline processes and procedures at NMA for expediting the issue of minutes and recommendations to applicants owing to the fact that adequate staff including an Under Secretary have now been posted.
4. **Meeting With Competent Authority, NCT of Delhi.** In view of the recent Hon'ble Supreme Court judgment in the case Vikas Singh Vs Govt. of NCT of Delhi and Ors, wherein the Hon'ble Court's judgment has been misconstrued by the environment as an increase in the height of residential buildings with stilts from 18 mtrs to 20 mtrs, meeting with Competent Authority, NCT of Delhi was held due to numerous representations from applicants from Delhi. After discussion and analysis of the judgment it emerges that there is nothing de novo in the judgment as the Authority has been granting permission for height upto 18 mtrs (all inclusive) when the Delhi Master Plan, 2013 and National Building Code, 2016 are in prevalence. Ibid Supreme Court judgment pertains to permission granted by Fire Department and ipso facto does not apply to NMA. Apropos, the Authority decided that max. height recommended shall be 18 mtrs (inclusive all), as hitherto fore, till Heritage Bye-Laws are finalized and top priority is to be given to preparation of Heritage Bye-Laws.
